SKILL LEVEL FOR INSTALLING PRÎMACTU™

Knowledge of external cladding required.

INSTALLING PRÎMACTU™

For full details on installing PRÎMACTU™ see our Design & Installation Guide. You can read it or print it out at www.ibs.co.nz.

HOW TO MAINTAIN PRÎMACTU™

Under normal conditions PRÎMACTU™ will need no maintenance, as long you maintain the protective finished layer. See the IBS PRÎMACTU™ warranty document for full details at www.ibs.co.nz.

KEEP YOURSELF SAFE

When you're installing PRÎMACTU™ panels, make sure you take all the necessary steps to keep yourself – and anybody else you're working with – safe.

That means:

- › Use safety glasses, ear protection and wear appropriate clothing and footwear.
- › Use the right tools for the right job. Follow what we recommend in our installation guide.
- › Do not cut indoors using a circular saw. Use a hand guillotine, fibre cement shears or a score and snap knife instead.
- › Provide dust extraction if you are working in an enclosed space.

For more information, head to worksafe.govt.nz and read the The Absolutely Essential Health and Safety Toolkit.
