Skill level needed to install IBS PanelLine Brace

Basic carpentry skills required.

Installing IBS PanelLine Brace

For full details on installing IBS PanelLine Brace see our Design & Installation Guide. You can read it or print it out at www.ibs.co.nz

How To Maintain IBS PanelLine Brace

IBS PanelLine Brace shouldn't require specific maintenance, provided the building the panels are in is protected from internal moisture. See the IBS PanelLine Brace Care & Maintenance Guide for full details at www.ibs.co.nz

Keep Yourself Safe

When you're installing IBS PanelLine Brace, make sure you take all the necessary steps to keep yourself – and anybody else you're working with – safe. That means:

- || Use safety glasses, ear protection and wear appropriate clothing and footwear.
- || Use the right tools for the right job. Follow what we recommend in our installation guide.
- || Select and use the right equipment for working at height.
- || Ensure each panel is well supported when you are cutting and fixing.
- || Provide dust extraction if you are working in an enclosed space.
- || Any offcuts or shavings should be removed without generating dust.

For more information, head to worksafe.govt.nz and read the The Absolutely Essential Health and Safety Toolkit.
